
LGBT people in computing and technology

Who are Stonewall?

This resource is produced by Stonewall, a UK-based charity that stands for the freedom, equity and potential of all lesbian, gay, bi, trans, queer, questioning and ace (LGBTQ+) people. At Stonewall, we imagine a world where LGBTQ+ people everywhere can live our lives to the full. Founded in London in 1989, we now work in each nation of the UK and have established partnerships across the globe. Over the last three decades, we have created transformative change in the lives of LGBTQ+ people in the UK, helping win equal rights around marriage, having children and inclusive education.

Our campaigns drive positive change for our communities, and our sustained change and empowerment programmes ensure that LGBTQ+ people can thrive throughout our lives. We make sure that the world hears and learns from our communities, and our work is grounded in evidence and expertise.

Stonewall is proud to provide information, support and guidance on LGBTQ+ inclusion; working towards a world where we're all free to be. This does not constitute legal advice, and is not intended to be a substitute for legal counsel on any subject matter. To find out more about our work, visit us at www.stonewall.org.uk.

Registered Charity No 1101255 (England and Wales) and SC039681 (Scotland)

Alan Turing

Alan Turing made one of the first computers.

Alan's computer helped to end World War 2.

Sophie Wilson

Sophie Wilson makes computers.

Sophie helped to make a new kind of microchip.

This is something that makes computers work.

Audrey Tang

Audrey Tang works for the government in Taiwan.

Audrey makes apps that help people.

Nergis Mavalvala

Nergis Mavalvala

made

a machine

that

helps

scientists

find out

about

space.

Helping other people

All of

the

people

in this

e-book

are

LGBT.

They

are

famous
